ART FAIRS & INTERNATIONAL PARTICIPATION

Over the past years, Ricardo Fernandes Gallery has built a consistent and internationally recognized presence across leading art and design fairs worldwide. Our participation spans exhibitions, curated presentations, institutional collaborations, and invitations to professional programs supported by cultural organizations and governmental bodies. From contemporary art and photography to design and cross-disciplinary projects, the gallery has contributed to debates, negotiation rounds, catalog launches, and curated showcases that reflect our commitment to artistic excellence and global dialogue. This archive brings together the fairs in which we have taken part in multiple capacities: exhibitors, collaborators, curators, and as invited experts, highlighting the breadth and depth of our engagement with the international art ecosystem, not even counting our participation as visitors of innumerous art fairs around the globe.
